One of the most important of the oldest provincial libraries, est. 1792 and popularly known as the Vivliothēkē Chiou "Korais". It bears the name of the famous Greek humanist, patriot, and language reformer who was a tireless campaigner for the establishment of libraries in Greece before and after the revolution of 1821. He was a particular friend of Chios and, aside from donating his own personal collection to the library there, was instrumental in obtaining gifts of books from scholars in northern Europe. Other important gifts and bequests have come from prominent Greeks and natives of Chios. Of the ca. 180.000 vols. now in the library there are many rare MSS and imprints, including 17 incunabula. Books and MSS of Byzantine Music have been acquired from monasteries and churches of Chios. There are ca 80 books on Byzantine Music and 30 music MSS from the 18th and 19th cent.
